

**COMPRESSOR OILS:****TL COMPRESSOR OILS**

ISO VG : 32, 46, 68, 100 & 150

Performance Level : IS 13256: 1992

These oils are high quality solvent refined mineral oils specially developed for compressor lubrication. These oils have high viscosity index, good oxidation, thermal stability, good demulsibility property, low deposit and slow sludge forming tendencies. They provide excellent lubrication and protection against rust & corrosion.

Application: Recommended for high performance reciprocating and rotary compressor where air discharge temperatures may go up to 200°C.
