Manufacturer of Greases &amp; Specialty Oils

**TL HEAT TRANSFER FLUID -500****Performance Level :** IS 493 (Part 1): 1981

These types of oils designed to cover a broad range of heat transfer application, this product has good heat transfer properties, these oil have low volatility and low vapour pressure, These oils have high viscosity index, good oxidation, thermal stability and low volatility and hence extended oil life. The oil offers minimum sludging and fouling of heat transfer areas.

**Application:** Suitable for Thermic fluid systems / heaters (enclosed system) up to 280 °C
